

Iceland Tax Update 2025: Inform Your Clients

From 01 January 2025 Iceland introduced a mandatory infrastructure tax for all cruise ship passengers calling at its ports, regardless of age or disembarkation port.

What you need to communicate to the passengers before they board their cruise:

- **Cost:** ISK 2500 per day (**aprox 17-18 euro per person**)
- **When does it apply?** for each day of stopover in Iceland
- **How does it work?** No direct payment is required. All transactions are managed directly by Costa. The amount is paid in advance by Costa and then **charged to the passengers onboard bill after departure.**
